NORA NEYLAND

junior web developer

PROFILE

My career experience to date has made me something of a Jack-of-all-Trades. But there are two real feathers in my cap that make me a desirable employee, my psychology degree and my time spent at MakerSquare. I am a student at heart with a thirst for knowledge and these two experiences have kept me excited and engaged as a learner.
In my time at MakerSquare I found myself drawn to front-end work and the design of a final product. I aspire to work with a collaborative team of talented and innovative individuals and produce meaningful work. I hope to find an inspiring work environment that allows exploration of creativity and open-source collaboration.

EXPERIENCE

MAKERSQUARE, 2014 - present

Web Developer Student
- MakerSquare is a 3-month full-time accelerated learning program for software engineering. By teaching computer science fundamentals and modern web technologies, MakerSquare prepares students to join the workforce as web developers
- Students learn various languages and skills necessary to become a web developer: HTML/CSS, JavaScript, Ruby on Rails, JavaScript frameworks like jQuery, GIT version control, and test-driven development

BYPASS MOBILE, 2014

Office Manager/Accounts Receivable
- Maintained office services by organizing office operation and procedures such as: preparing payroll, reviewing and approving supply requisitions, and general staffing
- Updated accounts receivable accounts and collections

THIN CENTERS MD, 2012 - 2013

Account Manager
- Monitored the implementation of projects and served as liaison between the development team and C-level executives
- Resolved customer/supplier issues by working directly with experience provider to come to a just conclusion

WENDY FOSTER, 2011-2012

Sales Associate
- Developed extensive customer relationships and assisted with store merchandising and purchase orders for upcoming seasons
- Maintained a sales record of at least $30k a month

SANTA BARBARA COUNTY, 2011

Child Welfare Services Associate
- Assisted in assessment and investigation of child abuse or neglect, spent time in shelters with foster care children and in home visits with families
- Researched new ways to recruit and communicate with potential foster families via social media and online networking
